

DIESEL ENGINE OIL

SAE 50 API CC/SC

SAE 50 is a mono-grade diesel engine oil, manufactured from a high-quality of base oil and selected additives to give good protection. To provide excellent detergency and dispersancy. It has a good Quality diesel engine.

SPECIFICATION

It is p specially formulated for mild conditions, it has anti-wear, anti-corrosion, anti-rust, and anti-oxidant properties.

PERFORMANCE LEVEL

- API CC/SC

ADDITIONAL QUALITY FEATURES

- Protection against wear and rust prevention.
- Excellent high-temperature stability.
- High stability in operation

APPLICATION OF USE

SAE 50 is recommended for use in diesel engines for vehicles, vans, and light trucks operating under mild service conditions, and for material handling machines.

TYPICAL TECHNICAL PROPERTIES

Physical Characteristics	Test Method	Typical Value
SAE Grade		50
Density @ 15 °C, kg/L	ASTM D-1298Z	0.894
Kinematic Viscosity, cSt		
Viscosity Index	ASTM D-2270	102
Flash Point COC, °C	ASTMD-92	250
Pour Point, °C	ASTM D-97	-9

Note: All figures may vary slightly.
